Projects

1.Expense Tracker:

- I have made an expense tracker web-app using react js.
- It contains component like add expense , chart of month wise expense , expense list which can be filter by year.
- Demo-Link : <https://expensetracker-rct.netlify.app/>

2.Portfolio Website:

- I have made my personal portfolio website (front-end part) using html/css/javascript.
- Demo-Link : <https://rudratrivedi14.github.io/Portfolio/>

3.Realtime Chat:

- This real time chat web app has been made using node js and socket.io.
